ZONING ORDINANCE
VILLAGE OF ELLSWORTH
ANTRIM COUNTY, MICHIGAN

PREAMBLE

An Ordinance to provide for the establishment of Zoning Districts to encourage and regulate the use of land and proper location of buildings and structures for residence, trade, industry, or other purposes; to regulate dimensions of yards, and other spaces; to provide for the administration, enforcement, penalties for violation, and amendment of this ordinance.

ARTICLE I: SHORT TITLE AND PURPOSE

Section 1.1 Short Title

This Ordinance shall be known and may be cited as the Village of Ellsworth Zoning Ordinance

Section 1.2 Purpose

The fundamental purpose of this Ordinance is to promote and safeguard the public health, safety, comforts and general welfare of the people; To protect the character and the stability of the residential and business areas within the Village, and to promote their orderly and beneficial development; To protect property values, natural resources and ensure the compatibility of adjacent uses; To provide for a living situation which is complementary and efficient to all the residents of the Village; To prevent nuisances, overcrowding and overuse of land; and to be one means of implementing the Goals and Policies as set forth in the Village of Ellsworth Master Plan.

The purpose and intent of the Sections of this Ordinance pertaining to the regulation of sexually oriented businesses is to regulate the location and operation of, but not to exclude, sexually oriented businesses within the Village, and to minimize their negative secondary effects. It is recognized that sexually oriented businesses, because of their very nature, have serious objectionable operational characteristics which cause negative secondary effects upon nearby residential, educational, religious and other similar public and private uses. The regulation of sexually oriented businesses is necessary to ensure that their negative secondary effects will not contribute to the blighting and downgrading of surrounding areas and will not negatively impact the health, safety and general welfare of village residents. The provisions of this Ordinance are not intended to offend the guarantees of the First Amendment to the United States Constitution or to deny adults access to sexually

oriented businesses and their products, or to deny sexually oriented businesses access to their intended market. Neither is it the intent of this Ordinance to legitimize activities which are prohibited by Village ordinance, state or federal law. If any portion of this Ordinance relating to the regulation of sexually oriented businesses or referenced in those sections is found to be invalid or unconstitutional by a court of competent jurisdiction, the Village intends said portion to be disregarded, reduced and/or revised so as to be recognized to the fullest extent possible by law. The Village further states that it would have passed and adopted what remains of any portion of this Ordinance relating to regulation of sexually oriented businesses following the removal, reduction or revision of any portion so found to be invalid or unconstitutional.

Section 1.3 Enabling Authority

This Ordinance is adopted pursuant to the City and Village Zoning Act, P.A. 207 of 1921 of the State of Michigan, as amended (MCL 125.581 through 125.592).

Section 1.4 Enactment

The provisions of this Ordinance are to become effective and applicable within said Village immediately on and after the date of its passage by Village of Ellsworth Council and subsequent publication as required by law.

Section 1.5 Limitation of Zoning Ordinance

The provisions of this Ordinance shall not apply to the use of any dwelling, building, or structure or any land or premises, which was lawful and existing on the adoption date of this Ordinance.

If any, use, structure or part thereof is placed upon a piece of property in conflict with the intent and provisions of this Ordinance, such use or structure shall be declared a nuisance and may be required to be vacated, dismantled, abated, or cease operations until brought into conformance with this Ordinance.

In the event that any lawful use or structure which exists or is under construction at the time of the adoption of this Ordinance and is not in conformance with the provisions of the zoning ordinance, such use or structure shall be considered a legal non-conforming use and be allowed to remain as such, including completion of construction, providing completion occurs within one (1) year from the effective date of this Ordinance.

Section 4.2 Non-Conformities

A. Classification of Nonconforming Uses and Structures

Nonconforming uses and structures are those which do not conform to a provision or requirement of this Ordinance or any subsequent amendment but which were lawfully established prior to the time of Ordinance adoption or amendment. Class "A" nonconforming uses or structures are those which have been so designated by the Planning Commission, after application by the person having interest in the property or the Zoning Administrator, upon finding that the use or any portion of the structure:

1. Is not in an environmentally sensitive area;
2. And the continuance thereof would not be contrary to the purpose of this Ordinance as described in Section 1.2;
3. And the use or structure does not and is not likely to significantly depress the value of nearby properties;
4. And that the use or structure was lawful at the time of its inception and that no useful purpose would be served by strict application of the provisions or requirements of this Ordinance with which the use or structure does not conform.
5. And that the use or structure is of economic benefit to the community.

All nonconforming uses and structures not designated as Class "A" are Class "B" nonconforming uses or structures.

B. Procedure For Obtaining Class "A" Designation, Conditions

A written application shall be filed setting forth the name and address of the applicant, giving a legal description of the property to which the application pertains and including such other information as may be necessary to enable the Planning Commission to make a determination of the matter. The Planning Commission may require the furnishing of such additional information as it considers necessary. The notice of hearing procedure before the Planning Commission shall be the same as in the case of an application for a variance. The decision shall be in writing and shall set forth the findings and reasons on which it is based. Reasonable conditions may be attached to the Class A designation to prevent conflicts with other property uses or to assure compatibility with the purpose of this Ordinance as outlined in Section 1.2. No vested interest shall arise out of a Class "A" designation.

C. Revocation of Class "A" Designation

Any Class "A" designation shall be revoked, following the same procedure required for designation, upon a finding that as a result of any change of conditions or circumstances the use or structure no longer qualifies for Class "A" designation.

D. Regulations Pertaining to Class "A" Nonconforming Uses And Structures

A Class "A" nonconforming use or structure shall not be repaired, restored, extended, enlarged or substituted for except in accord with the following requirements:

2. A Class "A" nonconforming use or structure damaged by fire, explosion, flood, erosion or other acts of God may be restored, rebuilt or repaired only after approval by the Planning Commission. The Planning Commission shall permit any structure to be returned to its prior use provided there is no increase in the intensity of the nonconforming use and providing there is no increase in the square footage of the nonconforming structure. No restoration, rebuilding or repair shall increase the extent of violation of setback or other dimensional or area requirements of this Ordinance. If a nonconforming structure can be rebuilt in greater conformance or even complete conformance with this Ordinance, then the Planning Commission shall require the greatest possible conformance unless the cost of such compliance exceeds one hundred fifty (150) percent of the replacement cost of the entire structure, then complete compliance or partial compliance shall not be required. The Planning Commission may require the land owner to provide site plans, appraisals or other construction or land data which are necessary to assure compliance with the Ordinance.
3. There shall be no structural changes including enlargement or extension of a Class "A" nonconforming structure or use except after approval of the Planning Commission. In exercising its discretion regarding a request for approval of a structural change, the Planning Commission shall consider the factors contained in Section 7.2, Uses Subject

to Special Approval. In addition, no extension or enlargement of a Class A nonconforming use or structure shall be approved if approval would result in violation or increase of the waterfront, front yard, rear yard, side yard or side yard setbacks, or similar requirements of this Ordinance.

4. A Class "A" nonconforming use may be substituted for by a similar nonconforming use or structure when the Planning Commission determines the substitution would improve the property, would not increase the structure or uses nonconformity, or when the substitution would not be contrary to the intent of this Ordinance.
5. The Planning Commission may attach conditions to any approval granted by the Planning Commission to a Class "A" nonconforming use. Those conditions shall attempt to make the use less nonconforming or to lessen its impact on nearby properties.

E. Regulations Pertaining to Class "B" Nonconforming Uses and Structures

It is the intention of this Ordinance that all Class "B" nonconforming uses will either be eliminated or changed to conforming uses over a period of time. This Ordinance is intended to encourage the elimination of Class "B" nonconforming uses and to discourage anything that extends the normal useful life of a Class "B" nonconforming use. 2. Any Class "B" nonconforming use or structure damaged by fire, explosion, flood, erosion or other acts of God may be restored, rebuilt, repaired only after approval by the Planning Commission. The Planning Commission shall permit any structure to be returned to its prior use provided there is no increase in the intensity of the nonconforming use and providing there is no increase in the square footage of the nonconforming structure. No restoration, rebuilding or repair shall increase the extent of violation of setback or other dimensional or area requirements of this Ordinance. If a non-conforming structure can be rebuilt in greater conformance or even complete conformance with this Ordinance, then the Planning Commission shall require it. The cost of complete compliance or greater compliance with this Ordinance shall not be a factor in the decision of the Planning Commission unless the cost of compliance exceeds one hundred fifty (150) percent of the replacement cost of the structure as determined by the Planning Commission. The Planning Commission may require the land owner to provide site plans, appraisals, or other construction or land data which are necessary to assure

compliance with this Ordinance.

5. No Class "B" nonconforming use or structure shall be permitted to continue in existence if it was unlawful at the time it was established.
6. A Class "B" nonconforming structure or use may be substituted for with a conforming use or structure, or by a use or structure which meets the requirements of a Class "A" nonconforming use when the Planning Commission determines that the substitution would not increase the nonconformity of the use or structure or be contrary to the public health, safety and welfare and the intent of this Ordinance.

F. Determination of Replacement Cost; Prior Value

The cost of repairing, restoring, or improving a Class "A" or "B" nonconforming use or structure (excluding contents), damaged by fire, explosion, flood, erosion or other acts of God, shall be made on the basis of an appraisal by a qualified individual designated by the Planning Commission. At the same time, the Village recognizes the right of residents to be free of advertising that could affect property values and create an unpleasant or less than desirable atmosphere. The use and erection of all outdoor signs shall be subject to all federal, state and local statutes and regulations and the regulations of the Village of Ellsworth Zoning Ordinance.

These regulations are intended to permit signs and other displays that are needed for the purposes of identification or advertising, subject to the following objectives: reason of their size, location, spacing, construction or manner of display, signs shall not endanger life or limb, confuse or mislead traffic, obstruct vision necessary for traffic safety, or otherwise endanger the public health or safety. Section 6.7 Planned Unit Development District (PUD)

Section 6.7.1 Intent

The intent of the Planned Unit Development is to allow design and use flexibility on a given site while at the same time protecting present and future residents and public facilities from the adverse effects of unplanned or unregulated development. This approach allows the applicant to utilize innovative designs and methods to control the effects of development rather than having rigid numerical zoning standards dictate design parameters. The burden of proving a Planned Unit Development is within the parameters and intent of this Ordinance is completely upon the applicant. The Village Planning Commission is to be the judge of whether or not the design contains sufficient safeguards as to make the effects of the development compatible with the intent of this Ordinance. It is the expressed intent of this section to allow such items as setbacks, yards, parking spaces, type of dwelling unit and use to be regulated on an overall impact or gross development basis rather than individually for each lot, use, or structure.

Section 6.7.2 Criteria

A Planned Unit Development shall be judged against the criteria outlined below. The discretionary judgmental process shall follow, first the procedures specified in this Article and second other conditions specified in this Ordinance, such as under the General Provisions and Supplemental Site Development Standards.

A. Size

A Planned Unit Development shall be of sufficient size to contain on the site

both physically and aesthetically not only the development proposed but also any effects of such development that would ordinarily be apparent and different from the effects of permitted uses on the adjacent properties.

B. Internal Design Standards

A Planned Unit Development shall be designed so as to provide future users, residents, visitors, and public service personnel with light, air, privacy, circulation patterns, park areas, and public services equal to or greater than those required of the same uses in any zoning district where they are permitted.

C. External Effects

A Planned Unit Development shall be designed so as not to create any significant negative impact upon adjacent properties, residents, or public facilities.

Section 6.7.3 Approval Procedures

A. Pre-Application Meeting

The procedure of application and approval of a PUD permit shall include one (1) or more informal conferences between the applicant and Zoning Administrator. The applicant shall inform the Zoning Administrator of the applicant's general intentions at this time. The Zoning Administrator may request or recommend the applicant request representatives from Village, Township or County agencies (department of public works, fire department, county sheriff and other agencies) to attend such informal conferences. After consideration of comments from the pre-application meetings, the applicant shall prepare a preliminary plan.

B. Requirements of Preliminary Plan

Following the Pre-application Conference, the applicant may file a PUD application with the Zoning Administrator in order to receive a formal Planning Commission review of a Preliminary Planned Unit Development Plan for the subject property. The applicant shall submit twelve (12) copies of Preliminary Planned Unit Development Plan with the PUD application, at least twenty-one (21) days prior to the date of the Planning Commission meeting at which a Public Hearing on the Plan is to be scheduled.

The Preliminary Planned Unit Development Plan shall provide all the information specified under **Section 7.1 (B) Site Plan Review-Site Plan Data Required**.

C. Planned Unit Development Review Procedure

1. Public Hearing: Upon request Village Planning Commission shall

schedule, notice and conduct a public hearing on the Planned Unit Development Preliminary Plan.

2. Approval / Action: Following the public hearing, the Village Planning Commission shall approve, disapprove or approve subject to specified conditions / revisions to the proposed Planned Unit Development. If the required conditions or revisions are, in the opinion of the Planning Commission, substantive in nature, a second public hearing shall be held. Approvals shall be valid for twelve (12) months. If a final plan is not submitted within twelve (12) months the preliminary approval shall become null and void.
3. Final Approval: A final plan shall be prepared incorporating any changes specified as part of the preliminary approval. The Zoning Administrator shall review the final plan for compliance with the provisions of the preliminary approval. If found to be in compliance, the Zoning Administrator shall issue a final approval and shall notify appropriate agencies that construction permits may be issued. Final approval shall be valid for twelve (12) months. If construction permits are not obtained within this time, the approval shall become null and void.
4. Performance Bonds: To ensure compliance with the approved final plan, the Village may require a deposit, (cash, certified check, irrevocable bank letter of credit, or security bond), to cover the estimated cost of improvements. The performance guarantee shall be deposited, with the Village Clerk, at the time of the issuance of the permit authorizing the activities or project. The Village may not require the deposit of performance guarantee before the Village is prepared to issue the permit. The Village shall rebate or release any cash deposits in reasonable proportion to the ratio of work completed on the required improvements as work progresses.

Fees for PUD Project Master Plan review shall be established or revised by resolution of the Village Council.

Costs of alternative technology that exceed new tower or antenna development shall not be presumed to render the technology unsuitable.

 - a. Tower facilities shall be landscaped with a buffer of plant materials that effectively screens the view of the tower compound from property used for residences. The standard buffer shall consist of a landscaped strip at least four (4) feet wide outside the perimeter of the compound.
 - b. In locations where the visual impact of the tower would be minimal, the landscaping requirement may be reduced or waived.
 - c. Existing mature tree growth and natural land forms on the site shall be preserved to the maximum extent possible. In some cases, such as towers sited on large, wooded lots, natural growth around the property perimeter may be sufficient buffer.
 5. **State or Federal Requirements:** All towers must meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the state or federal government with the authority to regulate towers and antennas. If such standards and regulations are changed, the owners of the towers and antennas governed by this ordinance shall bring such towers and antennas into compliance with such revised standards and regulations within six (6) months of the effective date of such standards and regulations, unless a different compliance schedule is mandated by the controlling state or federal agency.  6. **Aesthetics:** Towers and antennas shall meet the following requirements:

- a. Towers shall either maintain a galvanized steel finish or, subject to any applicable standards of the FAA, be painted a neutral color so as to reduce visual obtrusiveness.

 - c. If an antenna is installed on a structure other than a tower, the antenna and supporting electrical and mechanical equipment must be of a neutral color that is identical to, or closely compatible with, the color of the supporting structure so as to make the antenna and related equipment as visually unobtrusive as possible.
 - d. Where a feasible alternative exists, towers, alternative tower structures and supporting structures shall not utilize a power source which generates noise able to be heard by a person of normal aural acuity at adjoining property lines or public property; however this section shall not be construed as limiting the use of temporary generators, or similar devices used to create power during periods of interruption of the primary power source.
7. Lighting: Towers shall not be artificially lighted unless required by the FAA or other applicable authority. If lighting is required, the lighting alternative and design chosen must cause the least disturbance to the surrounding views.
8. Compliance with Codes: Antenna and metal towers shall be grounded for protection against a direct strike by lightning and shall comply as to electrical connections and wiring and as to structural integrity with all applicable state and local building codes and the applicable standards for towers published by the Electronic Industries Association, as amended from time to time.

Every building or structure engaged in loading and unloading goods shall provide space on the premises in addition to that required for parking, for the loading, unloading and standing of all vehicles to avoid undue interference with public use of the highway.

Section 7.5 Review Procedure for Sexually Oriented Businesses

The Planning Commission shall adhere to the following procedures when reviewing a special approval application for a sexually oriented business.

- A. If the Planning Commission determines that a special approval application for a sexually oriented business is not complete when it is first presented to the Planning Commission, it shall provide written notice by first class mail within three (3) business days of said determination detailing the items required to complete the application. Upon payment of a new filing fee, the applicant may resubmit the amended application for review by the Planning Commission for completeness.
- B. If the Planning Commission determines that the application is complete, it shall within sixty (60) days of said determination make and adopt specific findings with respect to whether the proposed sexually oriented business is in compliance with the standards designated in Sections 7.2.1 and 7.3 (I). If the Planning Commission has not made and adopted findings of fact with respect to a proposed sexually oriented business and either approved or denied the issuance of a special approval for the same within sixty (60) days of its determination that a completed application has been filed, then the special approval shall be deemed to have been approved.
- C. Prompt judicial review of adverse determination: If the Planning Commission denies a special approval application for a sexually oriented business pursuant to the above paragraphs, then the applicant shall be entitled to prompt judicial review by submitting a written request to the Zoning Administrator. The Village shall within three (3) business days of the receipt of such written notice do the following:
1. File a petition in the Circuit Court for the County of Antrim seeking a judicial determination with respect to the validity of such denial and, in conjunction therewith, apply for a preliminary and permanent injunction restraining the applicant from operating the sexually oriented business in violation of the Village Zoning Ordinance;
 2. Request that the application for issuance of a preliminary injunction be set for a show-cause hearing within five (5) business days or as soon thereafter as is possible after the filing of such petition. In the event the applicant appears at or before the time of such show-cause hearing, waives the notice otherwise provided by Michigan Court Rules, and requests that at the time set for such hearing the Court proceed to hear the case under applicable rules of civil procedure for the issuance of such permanent injunction on its merits, the Village shall be required to waive its application for preliminary injunction and shall join in such request. In the event that the applicant does not waive notice and/or does not request any early hearing on the Village's application for permanent injunction, it shall never the less be the duty of the Village to seek the earliest possible hearing date under Michigan Law and the Michigan Court Rules.
The filing of written notice of intent to contest the Planning Commission's denial of a special approval shall not in any way affect the validity of such denial, but such denial shall be deemed invalid and the special approval application automatically approved if, within fifteen (15) business days of the filing of the Village's petition, a show-cause hearing has not been scheduled.
